

jumbosan

- Located in Ankara/Turkey
- 2000 m2 closed area in 2 factories.
- Hydraulic and Mechanical part manufacturing
- Engineering services
- Maintenance and repair services

- 7 CNC milling
- 3 CNC lathe
- 2 universal lathe
- 1 radial drill
- 1 metal saw
- 1 jigsaw and chamfering
- 1 ultrasonic washing machine

Welding machine and equipments

Test units

Drilling Industry

Mining Industry

Quarrying Industry

Oil Industry

Defence Industry

Food Industry

Agricultural Machines

Special Products According to Samples for any Industry

With our technical crew and production machines, we do the followings in the fields that we are active:

- Manufacturing of mechanical parts (like props, bushing, rock drill etc.) of the machines which are working underground for mine hoisting (like altrenative spare parts for Atlas Copco, Sandvik, Frukawa etc.)
- Manufacturing of mechanical parts of the machines which are working for mine processing
- Processing and shaping of materials like steel, aluminum, bronze and cast iron with sensitive CNC machines
- Designing and manufacturing of hydraulic systems and parts (like valve, manifold, cylinder, powerpack etc.) of industrial systems and machines

All of our productions and services are done with our experienced crew with engineering calculations and 3D drawing.
